The BrightSign XT243 and XT1143 media players can be used to decode images, audio, and video (at resolutions up to 4096x2160x60p) for digital-signage and kiosk applications. In addition to driving audio/video devices, these players can be controlled with various networked and built-in interfaces.

This manual specifies the hardware interfaces and operational theory of the XTx43 series.

Block Diagram

Interfaces

XT243

Front E	Back
---------	------

Status LEDs	WiFi antenna connector (1 of 2)
microSD card slot	3.5mm audio out
